Artificial Intelligence (AI) Workshops

Demystifying Tech Jargon and hype.
Workshops meet on Wednesday from 12-1

https://wentcloud.com/workshops-and-registration/

Introduction to Artificial Intelligence (AI)

Learning the fundamentals

- Overview of AI: What it is and its significance
- The evolution of AI: From rule-based systems to modern AI
- Key terms and concepts in AI

https://wentcloud.com/workshops-and-registration/

Understanding AI Technologies

How to integrate components

- Machine Learning: An overview and its types
- Deep Learning: Principles and applications
- Natural Language Processing (NLP): Techniques and use cases
- Computer Vision: How AI sees the world

https://wentcloud.com/workshops-and-registration/

Hands on with AI

Building with knowledge

- Introduction to AI programming languages and tools
- Practical exercises: Building simple AI models
- Case study: Applying AI to a real-world problem

https://wentcloud.com/workshops-and-registration/

Ethics and Compliance in AI

Making ethical choices

- The ethical considerations of AI
- Privacy and data protection in AI applications
- Compliance with legal and regulatory standards

https://wentcloud.com/workshops-and-registration/

AI in Industry and Business

Where the rubber meets the road

- AI applications in various industries
- Case studies: Successful AI implementations in business
- Future trends in AI and their implications for businesses
